The market took a turn for the better in the early afternoon, and the decline was checked. Many commission houses were buyers at this point. An important factor in the early decline was the increased movement, both export and interior. Telegrams from Houston and New-Orleans showed receipts much greater than for the same period last year. The increase was indirectly due to the Galveston disaster, as many thousands of bales were naturally diverted from that port.

When the application for letters of administration was made, in January, the petition set forth that the decedent had no wife or children at the time of his death. CHRISTIAN WORKERS IN CHICAGO,

HOUSE THREATENED BY ESCAPING GAS. DR. TORREY USES STRONG WORDS IN PLEADING FOR A GENERAL REVIVAL

> Chicago, Sept. 19.—The first session of the convention of Christian Workers was held at the Chicago Avenue (Moody) Church to-day. The Rev. R A. Torrey spoke on "The Need of a General Revival," making a bitter arraignment of the present methods of worship and what he said were the "deprayed tastes of the people" in literature, are and amusements.

> The big church founded by D. L. Moody was filled to the doors when the speaker began. After Dr. Torrey had completed a severe scoring of the ministry, in the course of which he said "Many of us who are professedly orthodox are infidels," launched forth into a fierce attack on certain

> church members. "Sunday is rapidly becoming a day of pleasure," said Dr. Torrey. "Along with neglect of prayer and eglect of God's Word goes a lack of generosity The churches are increasing in wealth, but the treasuries of the missionary societies are empty. Christians do not average a dollar a year for foreign missions. Unbelief is rampant. Hand in hand with this widespread infidelity goes immorality. Infidelity and immorality are slamese twins. Men marry one wife after another and are still admitted to good society, and women do likewise."

TAMMANY POLICE EXTEND ANTE-ELEC TION COURTESIES TO CRIMINALS

NEAR THE BOWERY.

Precinct are very much worried over the poor police protection which they are receiving. Robberies in broad daylight in side streets within a block of the Bowery are of frequent occurrence. The merchants say that the police make no at tempt to put a stop to these crimes and that news of them is kept from the press. Street robberies of the utmost boldness are becoming common and even the Chinese merchants in Mott-st, are afraid to carry money about the streets unless accom-

panied by friends. "I have witnessed two bold street robberles with my own eyes within the past week," said a Chatham Square money dealer yesterday to a Tribune reporter. "In neither case did I dare give assistand my search for a policeman was in vair ance, and my search for a policeman was in vain until long after the robbers had disappeared. The first robbery was in Hester-st., within a block of the Bowery, at 3 o'clock in the afternoon. An old man carrying a satchel and a gun case appeared in Hester-st. In the middle of the block three men who were coming down the street grabbed him. One held him about the waist while the other two went through his pockets. The other people in the street paid no attention to the man's cry for help and the robbers turned into a nearby saloon. The old man said he had not been nobbed of much money, and that he would not report it, for the police would do nothing.

"This afternoon I was eating luncheon in a Worth-st. restaurant. My table commanded a view of the street. I noticed a well dressed young man leading a prosperous looking 'drunk' down Worth-st. He steered him into the hallway at No. 85 Worth-st., and without bothering to shut the door began to run through his pockets. I saw ilm take out the man's watch and a wallet from his coat pocket. The victim was too drunk to make a protest and fell to the floor when the thief et go of him. As usual, there was no policeman to be found, and the robber had no trouble making its escape. It is getting so bad in this quarter that I leave my watch at home and carry only mough money to see me through the day. There vill probably be an improvement after election, or the Tammany police will not do anything to intagonize possible voters among the lawless element until the contest is settled." until long after the robbers had disappeared

ACCUSED COLLECTOR DISCHARGED.

Henry C. Fowler, a salesman and collector for a was arrested on Tuesday for the larceny of \$29.90, was arraigned before Magistrate Crane in the Jefferson Market court yesterday. William E. Powell, treasurer of the firm employing Fowler and on whose complaint the arrest was made, withdrew the charge and the prisoner was discharged From the story told in court it appears that Fow-

ler was recently employed by the firm at a salary of \$20 a week. On this sum he had to support a family of four children. He contended that since his business was to introduce the mineral water into hotels and other similar places his expense account was large, and that he had but a small margin left. Not long ago an eight-year-old son se said, and his expenses were greatly in ective Sheehan, of the West Thirtleth-st, stawith Mr. Powei, that the compaint would be with-drawn, and that in all probability Fowler would continue in the employ of the firm.

Mr. Powell corroborated this, and said he had no desire to prosecute the man, and that he had been assured that full restitution would be made.

DIAMOND MATCH OFFICE COMING EAST. Edwin Gould, who is one of the largest stockholders of the Diamond Match Company, authorizes a confirmation of the report that the company's financial offices are to be removed from Chicago to this city. This will be done as a matter of convenience, it is declared, and not because of any attack which may have been made by the Illinois Legislature against so-called trusts.

STEEL RAIL PRICE TO BE FIXED TO-DAY. The conference of the steel rail manufacturers, at which it is expected that a decided reduction will be made in prices, is scheduled to meet in this city to-day. Carnegle and Federal Steel interests re said to be especially interested, but no advance information concerning the meeting could be had at the local offices of these companies.

Guesses as to the price to be fixed by the manufacturers range all the way from \$22 to \$28 a ton. The top price is \$7 less than was asked by the steel rail men during the boom of 1859, although several railroad companies had \$20 a ton contracts with the manufacturers, who were forced to come to terms.

LIVERPOOL COTTON MARKET.

THE BOSTON WOOL MARKET.

Boston, Sept. 19.—"The American Wool and Cotton Reporter" will say of the wool trade to-morrow: "While there have been more manufacturers represented in the market the last week the volume of business actually transacted has been again small. Consumers evidently are not yet ready to lay in any large lines of wool, but they are closely watching the situation, and some of them are taking sample bags, which it is hoped will develop into some fair alsed sales before long. The wool trade as a whole is not making concessions to amount to anything, as most of those who have been holding their wool until the present time are generally determined to continue to hold until after the election. Prices on the whole may be quoted as steady, the general expectation in the trade being that there is not likely to be much more of a decline here. The sales of the week in Boston amounted to 1,030,000 pounds downestic and 55,000 pounds foreign making a total of 1,705,500, against a total of 1,305,600 for the corresponding week last year. The sales since January 1 amount to 94,646,500 pounds, against 200,846,100 pounds for the corresponding time last year.
